Here's the basic tune that we're working on in Newvember, as it was written in '97 - with blank bass clef for you to write in your own left hand if you like! You can simplify it as you need to make it work for you. The whole idea of Newvember is to have fun learning a new tune so make it your own. Each part repeats and you can play the whole tune several times.

Newvember is Harp North West's month long challenge to learn a new piece of harp music. Daily teaching videos by Mary Dunsford are on the website along with sheet music prepared by Karen.
